

From these 5 shots of a Dream ...

... one Dream of a Picture!

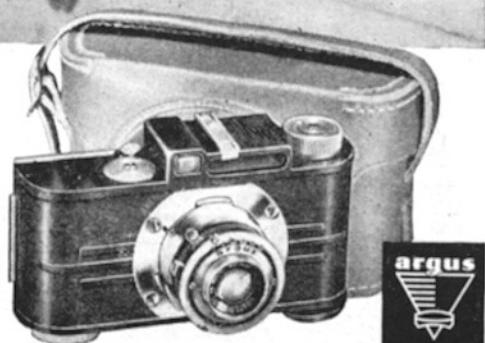

WITH YOUR MODEL A-2 you can shoot strip after strip of film. Then take the best of the lot, and blow it up! That's how thousands of Argus fans have made their best pictures. The improved A-2 Argus takes 35 mm. film. Uses standard 18, 20 or 36 exposure cassettes, or bulk load film . . . double frame (1" x 1 $\frac{3}{8}$ ") negative size. Lens: f4.5 color corrected, fluoride coated. Shutter, 1/25 to 1/150, plus time and bulb. Built-in exposure meter. Eye level view finder. Handsome, convenient carrying case. A-2's are still scarce but your photo dealer may have one to show you.
